Basin: PAHRUMP VALLEY  
Manner of Use: MUNICIPAL  
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST  
Priority Date: 06/22/1955

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This amended permit to change the place of use and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 16570, Certificate 5504, is issued subject to the terms and conditions imposed in said Permit 16570, Certificate 5504 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a two (2) inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 59604, 59605, 59606, 64043, 64044, 64574, 64575, 65101, 65562, 65715, 66829, 67016, 67950, 69430, 71363, 71937, 71938, 72967, 73592, 73593, 73646, 73647, 73691, and 76361, being owned by Desert Utilities, Inc. and having the same place of use, shall not exceed 11.79 cubic feet per second and 2,794.99 acre-feet annually. Permits 64574 and 64575 are for backup water only and do not add to the total combined duty of water.

The total combined duty of water under Permits 65101, 69430, 71938 and 73593, having the same point of diversion (Well #2) shall not exceed 0.777 cubic feet per second and 378.95 acre-feet annually.

(Continued on Page 2)

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.122 cubic feet per second but not to exceed 61.70 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

Filed June 19, 2007

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

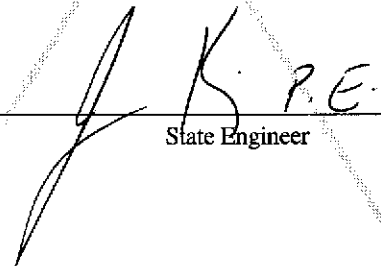

June 23, 2015

Map in support of proof of beneficial use shall be filed on or before:

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 16570, Certificate 5504 is issued subject to the terms and conditions imposed in said Permit 16570, Certificate 5504 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 59604, 59605, 59606, 64043, 64044, 65101, 65562, 65715, 66829, 67016, 67950, 69430, 71937 and 71938 shall not exceed 1340.344 acre-feet annually.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The issuance of this permit is for the consumptive use portion only being 43.19 acre-feet of the base right. The remaining portion of the right returns to the groundwater source.

The issuance of this permit abrogates 61.70 acre-feet from Permit 16570, Certificate 5504 (amended).  
(CONTINUED ON PAGE 3)

See Amended Permit

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.122 cubic feet per second, **and not to exceed 43.19 acre-feet annually.**

Work must be prosecuted with reasonable diligence and be completed on or before:

May 23, 2007

Proof of completion of work shall be filed on or before:

June 23, 2007

Water must be placed to beneficial use on or before:

May 23, 2015

Proof of the application of water to beneficial use shall be filed on or before:

June 23, 2015

Map in support of proof of beneficial use shall be filed on or before:
